

Home Sweet Home - Extension:

Credit for extension design goes to Jenny Hayward.

Stamp Sets:

- Sweet Home

Cardstock:

- Basic Black
- Pumpkin Pie
- Whisper White
- Halloween Night Speciality DSP

Inkpads:

- Cajun Craze
- Basic Black
- Pumpkin Pie
- Pumpkin Pie Marker

Tools:

- Brick Wall Embossing Folder
- Big Shot
- Paper Snips
- Clear Blocks
- Stampin' Trimmer/Scorer
- Stampin' Up! Bone Folder
- Fast Fuse/Tear and Tape/Tombow Glue
- Home Sweet Home Thinlits

Measurements:

1. **Gable Walls** – black - 21cm x 7cm (this will be enough to cut 2)
2. **Main Walls** – 10cm x 6cm (cut 2 of these) – score and fold at 1cm and 7cm
3. **Roof** – 9cm x 7cm (1 of) – score and fold at 4.5cm
4. **DSP** – 8cm x 22cm (this will be enough to cut all)
5. **Pumpkin Pie** – for door and window frames
6. **Scrap Whisper White and Basic Black** - for decorating

Gable Ends:

- Cut 2 black 'gable' pieces using the Home Sweet Home Thinlits. As you only need the 'gable' ends for this version you can cut as illustrated, leaving a short tab area around all sides, to save wasting cardstock.

- 2 DSP Gable Walls – cut using template and scissors. Template made by drawing around the inside of the cutting die. Either draw on to scrap/printer paper to make a template or directly on to the DSP, in preparation for fussy cutting. *If putting a door on take spacing for window in to consideration.*
- 2 Main Walls (Black) – score and fold at 1cm and 7cm

- 2 Main Walls (DSP) – fold the **black walls** at score lines and use this folded piece as a template to draw around to cut out the **Main Walls DSP**. Using the same method as in the last tutorial, die cut the windows from the (Brick Walls only).
- The black Main and Gable walls **will not** be cut through. Instead you should mark out, using a white chalk marker, where the windows will be positioned. You can use the DSP Walls as a template to draw the windows.
- Cut 6 window frames (there are a choice of frame shapes)
- Cut 6 Whisper White pieces to sit behind DSP/window frames. These pieces should be stamped with a little ghost or bat. These pieces will be glued over the white chalk marked areas. Ensure to double check the positioning before the glue completely dries.

- Cut as many ghosts and bats as you wish
- The Door is a partial die cut in to the DSP with a separately cut Door Frame.
- Score the roof piece. Apply a little Cajun Craze Ink to the inside of the Brickwork embossing folder and emboss the roof tiles.
- Adhere all layers. Whisper White on to Black – DSP next – then window frames and door.
- Now adhere the house together. Make sure not to apply adhesive to the base. You can use Glue Dots to temporarily close it once the treats are inside.
